

Dear Gordon,

Are you the Gordon Knight who was a forestry student at WVU and birded with Dr. George Hall? If you are, I have 3 snapshots of you banding at the Red Creek camp-ground that I took in Oct. 1959. In two you are holding a blue jay and in the other you are recording information. Unless you have similar photos, I will give these to you. I got your address from the BBC newsletter. If you're not that Gordon Knight, disregard this message! Regards anyway, John L. Smith

---

*Dear Gordon,*

*I'm finally sending copies of photos I took at Red Creek which I promised months ago! The place looks much more civilized now. I haven't taken in many of the fall banding operations for some years, but get there nearly every year or so during the summer.*

*Sincerely,*

*John L. Smith*
